- docker
- Symfony
- PostgreSQL
- RabbitMQ
- MongoDB
- MySQL
- Redis
- GitLab CI
- Elasticsearch
Systems development life cycle

- Requirement analysis
- System Design
- Development
- Testing
- Deployment
- Maintenance
Our clients around the world

We deliver high-quality web solutions to customers all over the world. Using only modern and most demanded technologies we realize projects of high complexity - from CRM systems to mobile applications. High-level of proficiency, popular technologies and more than 9 years of experience allows us working with foreign high profile customers and match even the most strict projects’ needs.
Customers geography
MeinFernbus

We could arrange such kind of work where the process of development solves much more business problems rather than creates any. This is a very valuable feature when you develop a startup.

Aleksey Kolupaev
CTO at MeinFernbus

Read the Story
Nova Poshta — Dashboard

We significantly improved current Personal Dashboard, flexibility of created solution allowed us to bring user experience to a new level.

Pavel Yeremenko
Head of UX at Nova Poshta

Read the Story
Stfalcon delivered a polished product that’s highly rated on The App Store and Google Play. Users appreciate the app’s intuitive interface and convenient functionalities.
